- Antenna can be mounted under the dash, won't clash with vehicle styling

GPS 160 MPH with Race Rim
shown with Vantage View
Slave gauges

LCD displaying
Total Miles

This stand alone GPS speedometer is a digital gauge with an analog readout and a built in LCD odometer.

Designed to be hassle free, this gauge relies on GPS satellite signals to display accurate speed and miles traveled, so there is no need to calibrate this gauge to gear ratios or tire size. Information is updated 10x per second using the GPS Pulse Antenna, model number: GPSSQ310X
