

HIGH FLOW FUEL / WATER SEPARATORS

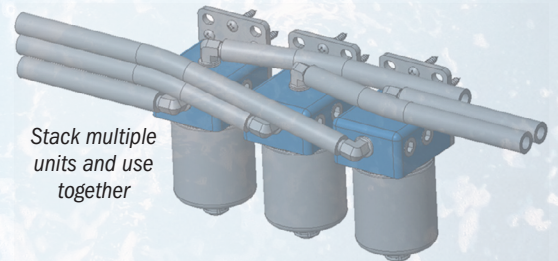

Filters and fittings
sold separately

Filter shown
with sight glass
and drain

1/2" NPT connectors provide for the high flow demands of today's larger outboards and sterndrives

- Flow tested and compatible with Mercury Marine's new 450R
- Multiple port locations allow these units to be mounted almost anywhere in the boat or bilge
- Configurable mounting bracket allows installers to mount fuel / water separators in tight locations if needed
- Anodized and painted for superior corrosion resistance and durability
- Private labeling available upon request

Stack multiple
units and use
together
