

*The #1 Choice in
Performance Boating!*

FOR IMMEDIATE RELEASE

Grayslake, Illinois

February, 2005

Monitor 2 probes with Livorsi's great, user-programmable 2 channel pyrometer!

Get style and added functionality with this 2 channel, user-programmable pyro. You'll have the ability to monitor 2 probes (2 banks of cylinders) with one gauge, see the reading on the hottest one and, recall the hottest temperature registered.

While there are other dual pyros on the market, this user-programmable one gives you more information and more control! Simply program the temperature setting and rest easy knowing the one of the three bright LED warnings lights will alert you any problems based on your temperature settings.

While the gauge may be ordered separately, a full kit is available and contains the gauge, 2 25' harnesses, 2 standard or 2 ultra thin probes, the bracket and the light.

The large graphics make for easy reading and the 2 5/8" cutout make it a nice match for the Monster Racing Series. Choose platinum, carbon fiber or black dial and your choice of 7 powdercoated rim colors. The super rim option is also available on this gauge.

For more information, check out Livorsi's website at www.livorsi.com or phone them at 847-548-5900, toll free at 877-548-5900 or e-mail them at sales@livorsi.com.
